5/19- Dear Larry,

My hunch on the books was every better than I told you last night. My immediate purpose is to tell you not to waste time onthe Milwaukee library. Both books found in Bremer's car came from it. I have the Enquirer checking with the library by phone for earlier borrowings. I've almost finished a long draft I must get retyped and into the mail today. Thanks for the good info in last night's call.

Best,
